## Area of Expertise

- Project control and process management
- Project planning and scheduling
- Motivating staff
- Geo survey project
- Administration
- Supply chain management
- Identifying key issues
- Team building and leadership
- Technical Support
- Coaching and mentoring staff
- Budgetary control
- Cost control/Reduction
- Strategic thinking
- Integrity
- Influencing skill
- Problem solving
- Analytical mind
- Relationship building

## Career

2016 – 2017

### Agent for Matthew Zangerer as QC Airborne Gravity

PT. Quest Geophysical Asia

- Prepare tender document
- As representative in Indonesia
- With finance department prepare invoice document and tax treaty

2016 – 2017

### Project Manager Asset Facilities and Management

PT. Quest Geophysical Asia

Responsibility to make sure our Genset Operation to support electrical in oil filed production belongs to PT Pertamina doing well. Also make a list company assets in storage, including preparing to sell the assets.

- Control and monitoring genset operation
- Monitoring spare parts genset
- Make estimation project cost each month
- Prepare for sell off assets

2013 – 2015

### **Field Project Manager for Seismic Operation**

PT. Quest Geophysical Asia

Survey Seismic, is complex project because involve many manpower with really different background, covered work more than 200km, every department get different problem (dept.topography, dept.drilling, dept.seismo-processing, dept.safety, dept.recording, dept.public relationship, sub dept.driver, sub dept.radio,etc). Every time strategic plan can change depend on the situation.
